December 2nd, 1918.

W. J. Dunlop, Esq.,

University Schools.

My dear Mr. Dunlop:

I have had a talk with Mr. Hamilton about your proposal that he should do the printing for your work of tariff education. I have told him that in my judgment he would be justified in taking it provided he is able to handle it, inasmuch as a Department of Government wishes it done, it will be a saving of your time, and is also educational.

Yours sincerely,

President.
